A16: Our primary goal under the program is to work with our children and youth to become successful contributing members of society by helping them to build and strengthen character and to teach them how to make good, sound decisions.

Generally, while campers need not participate in all activities, for their safety they are expected to be present at all scheduled activities, including prayer, seminars, meals and recreational activities

Q17: As part of my child's faith, my child will need to pray at least three times daily during the summer, will this be accommodated, and if yes, how?

A17: Yes. There is a sanctuary on premises that our campers may use to pray, meditate or reflect as needed. The expectation is that they will need to show the utmost regard and respect for the sanctuary. Information will be provided to campers about acceptable behavior while in the place of worship.

Q18: Will praying be a part of your program?

A18: Yes. We have built in some time for prayer in the sanctuary. Campers who are not Apostolic will not be forced to pray, however, for their safety they will need to be monitored by Counsellors and may need to be present in the sanctuary for safety reasons. In these cases, the utmost respect and regard for the activities at that time must be demonstrated.

Health and Safety

Q19: What steps will be taken to ensure my child's safety?

A19: Campers will be under the direct supervision of mature and responsible counsellors whose primary objective to ensure camper safety at all times. The camper to counsellor ratio is 10:1 (depending on age) which exceeds that of other organizations. All counsellors will receive First Aid and CPR Training and be certified. Additional safety steps will be taken on trips e.g. camper to counsellor ratio will be reduced e.g. 4:1 depending on age. We will also have a Student Camp Director and an Executive Camp director on site daily to oversee the complete management of the camp including camper safety.

For their safety primarily, campers must comply with instructions of personnel assigned to positions of responsibility. Any violation of rules, or any misconduct must first be reported to the camper's counselor for remedial action. If the issue cannot be resolved at this level, the next level of authority is the head counselor, camp director and ultimately the camper's pastor.

Should an event arise, accurate assessment will be done to determine if emergency services are required – in all events an incident report will be completed and the parent contacted.
